

We listen to K-Love on FM radio every day, it is a decent and uplifting station that we really do depend on. Our family would be very upset if it were replaced with a LPFM station in our area. I also drive a school bus and K-Love is the only station that I let the kids listen to because I know that it is safe for them to hear. Please understand how unique and important that this station that we support financially is to us, and do not replace it with a LPFM station.
Thank you, Mrs. Karen Davis
